The amendment filed May 30, 2003 has been entered.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 3-6, and 8-10 are rejected under 35 U.S.C. 102(a) as being anticipated by JP 11-322534-A. A translation is enclosed. The claims are rejected for the reasons set forth in Paper No. 6, mailed March 12, 2003.

Applicant's arguments filed May 30, 2003 have been fully considered but they are not persuasive. While applicants have amended the claims to show a particular astringent, the scope of the claims still read on the JP reference. The reference is directed to the formation of a ceramide synthesis promoter wherein a mixture of a microbe culture and a culture medium is utilized. The microbe culture may be any one of several cultures. A mushroom microbial-cell culture is one. The culture medium is butylene glycol . See page 9/30, sections 10 and 11. Applicants' claims reciting a mixture of butylene glycol and mushroom extract clearly read on the prior art composition. See page 10/30-13/30, sections 12-16. The active agent removed from a mushroom is clearly a mushroom extract. The reference shows

composition base components the same as applicants', which are used to form gels, soaps, wetting agents, lubricants, etc.

Claims 11 and 13-15 are allowed.

Claims 1, 3-6, and 8-10 are rejected.

Claims 2, 7 and 12 have been canceled.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M. Spear whose telephone number is 703 308 2457. The examiner can normally be reached on Monday thru Friday from 6:30 AM to 3 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman Page, can be reached on (703) 308 2927. The fax phone number for the organization where this application or proceeding is assigned is 703 305 3592 or 703 308 4556.
